

Cross-Site Enrollment School Connections - Start here

Last Modified on 10/02/2026 8:33 am CDT

[Cross-Site Enrollment](#) allows students to take a class at another school within the district ([intradistrict](#)) or another school within the state ([interdistrict](#)). [School Connections](#) allows the district administrator to determine which schools within the district can offer courses to other schools and which schools can accept offerings from other schools.

Getting started
