NC Advanced Math Course Placement Validations

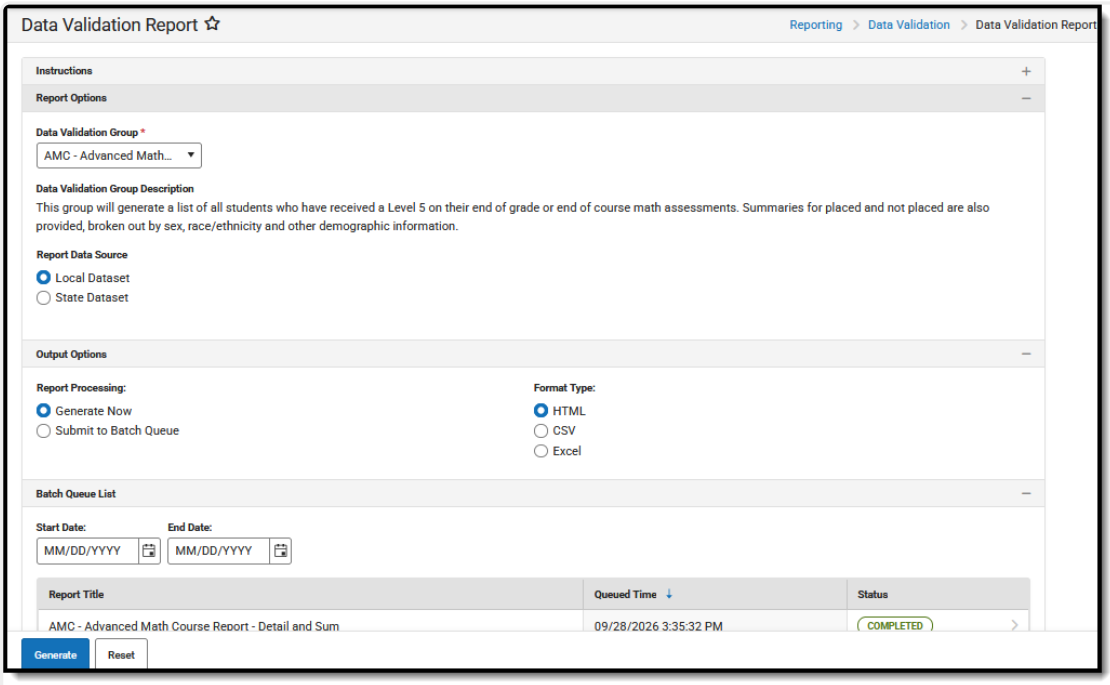

Last Modified on 10/15/2026 10:54 am CDT

Path: Reporting > Data Validation > Data Validation Report

The Advanced Math Course (AMC) Validation Suite is designed to identify students who demonstrate high achievement in mathematics but may or may not be scheduled into advanced math coursework.

Generate the Data Validation Report for the Data Validation Group of **AMC - Advanced Math Course Report - Detail and Summary** to review data prior to generating the report.

> See the Report logic and layout section for more information.

Configure report settings and generate a Data Validation Report for the AMC Validation Group

Report editor

Data Element	Description
Report Options	
Data Validation Group	Determines which report is generated. Select **AMC - Advanced Math Course Report - Detail and Summary.**

Data Element	Description
Report Data Source	When the Data Validation Group is State-owned, the report may be generated against the State Edition's database. When 'State Dataset' is chosen, then Report Processing is locked to Batch Queue.
Output Options	
Report Processing	To generate the report immediately, choose **Generate Now**. To choose when the report generates, choose **Submit to Batch Queue**
Format Type	Determines in which format the report generates - HTML, CSV, or Excel.

Generate the report

1. Select the **AMC - Advanced Math Course Report - Detail and Summary** from the **Data Validation Group** dropdown list.
2. Select the appropriate data source for the report - either Local Dataset or State Dataset.
3. Select the desired **Report Processing** option of **Generate Now** or **Submit to Batch Queue**.
4. Select the desired **Format Type**.
5. Click **Generate**. The report displays in the selected format.

Report logic and layout

Refer to the AMC - Advanced Match Course Report (October 2026) PDF for details on report logic and layout information.
