See the Campus Release Pack Enhancements (https://kb.infinitecampus.com/help/campus-release-pack-enhancements) article for a list of just enhancement release notes

Activities & Sports

Activity Eligibility Report fix (SIS-202201)

An issue in which the Activity Eligibility Report (https://kb.infinitecampus.com/help/activity-eligibility) did not report the teacher's name in CSV format was fixed.

Path: Student Information > Reports > Activity Eligibility Report

Activity Registration

Activity Registration Roster Performance (SIS-202637)

Resolved an issue that could cause Activity Registration rosters to load slowly when accessed through the Activity Monitor.

Path: Student Information > Activity Registration > Activity Monitor

Attendance

Attendance bug fixes (SIS-202848)

Multiple bugs have been addressed:

- Cross-Site attendance is now being sent to the serving school on the last day
- School/calendar name is now appearing on the ADA/ADM Report - CSV
- Kentucky - Student Profile Attendance Report is correctly summing same-day absences in a primary and secondary enrollment
- Kentucky - The Tardy code is now properly aligned on the Attendance Profile Report

Path: Attendance Office (https://kb.infinitecampus.com/help/11d957f)

Recording attendance for Cross-Site Enrollment students with ended Serving School rosters (SIS-202886)

Attendance could not be entered at a student's home school when the student had a previously ended Cross-Site Enrollment (CSE) roster at a serving school. This has been corrected.

The attendance validation process now considers roster start and end dates, preventing inactive serving school enrollments from incorrectly blocking attendance entry at the home school.

Path: Student Information > General > Attendance

Calendar

Calendar Rollover causes future courses to be inactive (SIS-202071)

The calendar rollover process has been updated to prevent future courses from being marked as inactive. This issue was disrupting course schedules for the upcoming academic year.

Path: Scheduling & Courses > Calendar > Calendar Wizard

Campus Instruction

Student list in Instruction Reports (SIS-192199)

Previously, the Student List in various Instruction reports listed some students as inactive when they had an active roster record in the section, if the student had dropped and then re-added the section. This issue has been corrected.

Path: Instruction > Reports

Selecting a Section in Instruction (SIS-202204)

Previously, some teachers were having navigation issues when selecting a section from the Teaching Center or using Classroom. This issue has been corrected.

Path: Instruction > Overview > Teaching Center

Grad Score column in Advisory (SIS-202305)

Previously, the Grad Score column did not display in the Advisory tool when Early Warning was enabled. This issue has been corrected.

Path: Instruction > Students > Advisory

Side panels in Advisory (SIS-202379)

As a result of a recent release, the side panels in the Advisory tool were no longer available. This has been corrected.

Path: Instruction > Students > Advisory

Census

Census - Mailing Labels (SIS-197904)

An issue in which the Mailing Labels Report (https://kb.infinitecampus.com/help/mailing-labels-report) incorrectly printed multiple labels for students when the "Students" option was chosen, showing addresses for all primary households associated with the guardian, even if the student was only a member of one of those households, has been resolved.

Path: Census > Reports > Mailing Labels

Census - Student Information General Summary (SIS-198970)

The Summary (https://kb.infinitecampus.com/help/student-summary1) tool quick contact tile now loads consistently for all students.

Path: Student Information > General > Summary

Classroom Integrations

Hide OAuth 2.0 Client Secrets for LTI and OneRoster (SIS-189889) **[Enhancement]**

Logic for viewing the Client Secrets for connections using OAuth 2.0 has been updated to improve security. For LTI, the client secret is no longer shown at all. For OneRoster, a new "View Secret" workflow has been added to explicitly display the client secret when the user needs to view it.

Path: Instruction > Settings > Digital Learning Applications Configuration

Selecting schools for OneRoster connections (SIS-202420)

Previously, the option to Select All/Deselect All Schools in a Digital Learning connection did not work for districts with more than 100 schools. This issue has been corrected.

Path: Instruction > Settings > Digital Learning Applications Configuration

Contact Log

Contact Log Tool Rights fix (SIS-198629)

An issue was fixed where the Contact Log (https://kb.infinitecampus.com/help/contact-log-general) did not honor the calendar tool rights when switching calendars in the context switcher.

Path: Census > People > Contact Log; User Management > User Groups > Tool Rights

Contact Log context switching fix (SIS-201795)

An issue when navigating between students and the Contact Log (https://kb.infinitecampus.com/help/contact-log-general) remaining the default tool, even when a different tool was selected, was fixed.

Path: Student Information > General > Contact Log

Course or Section Setup

Cross-Site Enrollment icon missing on Section Roster (SIS-196481)

The Cross-Site Enrollment icon, which indicates which students are Cross-Site, now correctly displays on the Section Roster (https://kb.infinitecampus.com/help/roster-section) at the Serving School.

Path: Scheduling & Courses > Courses > Section Roster

Section Date Fields Revert To One Day Prior (SIS-201657)

Date fields in the Section Information (https://kb.infinitecampus.com/help/section-information-sections) tool were saving as a date earlier than was entered for a user who had a particular time zone set. This has

been corrected.

Path: Scheduling & Courses > Courses > Section Information

State Edition - Failed to Load Section Roster Data (SIS-201960)

A "Failed to load Section Roster data" error displayed when attempting to view section rosters (https://kb.infinitecampus.com/help/roster-section) in State Edition. This has been corrected.

Path: Scheduling & Courses > Courses > Section Roster

Section Roster Performance (SIS-202194)

Performance has been optimized for the Section Roster (https://kb.infinitecampus.com/help/roster-section) tool to more quickly display the roster when the user has access to many plans (IEPs, PLPs, etc.).

Path: Scheduling & Courses > Courses > Section Roster

Custom

Custom Module updates (SIS-197148)

Several updates were made to how Custom Modules (https://kb.infinitecampus.com/help/custom-module) function:

- An issue where Custom Modules named "Enrollments" or "Enrollment" were causing the "Copies Forward" checkbox to not work on the core Enrollments tool was fixed.
- Contact Log-only Custom Modules are no longer available as a Screen Location option in the Custom Attribute Dictionary.

Path: Student Information > Custom Forms and Custom Modules > Custom Module Setup; System Settings > Custom Data and Links > Custom Attribute/Dictionary

SSRS Dynamic Report Options incorrectly setting NULL defaults to 0 (SIS-202884)

SSRS Dynamic Report Options were incorrectly setting default NULL parameters to 0, causing the report to crash. This issue was corrected.

Path: Report Parameter Properties

Data Utilities

Data Extract Utilities not initially showing extracts (SIS-195182)

Extracts inserted into Data Extract Utilities, either in the old UI or through the database, that

contained bad conditions caused all extracts to initially not appear in the tool until a filter status button was selected. This issue was corrected.

Path: System Settings > Data Utilities > Data Extract Utilities

Data Extract Utilities - Student Photo Extract generating an empty or incomplete file (SIS-198256) **[Enhancement]**

SMB-related issues were causing the Student Photo Extract file to generate as empty or incomplete. These issues were corrected.

Path: System Settings > Data Utilities > Data Extract Utilities

DIS/SIF

SIF Unity – Object Viewer updates (SIS-199076) **[Enhancement]**

Additional columns have been added to the SIF Unity Object Viewer (https://kb.infinitecampus.com/help/sif-unity-object-viewer) when more than 50 results are generated.
The results for the SIF Unity Object Viewer in the Configuration and SIF Person Data tools have been updated to display in a page format. The results from the Object Viewer can then be exported to JSON or CSV format.

Path: System Settings > SIF Unity > Configuration Tool > SIF Tools > Object Viewer; Census > People > SIF Person Data

SIF Unity – Reconciliation tool (SIS-199237) **[Enhancement]**

The Reconciliation tool (https://kb.infinitecampus.com/help/reconciliation-sif-unity) has been enabled for SIF Unity, allowing districts to compare refIDs in Infinite Campus with those at the state level.
Currently, this tool is only enabled for Oklahoma and Wyoming.

Path: System Settings > SIF Unity

SIF Unity - Employment Record object (SIS-201982)

The Employment Record object (https://kb.infinitecampus.com/help/sif-unity-objects) has been enabled for core SIF Unity reporting.

Path: System Settings > SIF Unity

DIS/SIF - Require action type for DIS/SIF 2.x messages (SIS-202146)

Changes have been made to require the use of 'Add', 'Change', or 'Delete' action types for SIF/DIS messages to improve security by ensuring only valid action types are accepted.

Path: No specific path

Previous DIS/SIF update reverted (SIS-202892)

A previous update in the Campus.2639 Release was preventing DIS/SIF data from being sent. This code has been reverted.

Path: No specific path

Ed-Fi

Ed-Fi - Error handling update for ODS Errors (SIS-168369)

Error handling has been updated to accommodate Ed-Fi errors that are returned as text rather than JSON.

Path: Reporting > Ed-Fi > Ed-Fi Error Log

Ed-Fi – Resync clean-up process update (SIS-169396)

The clean-up functionality of the Ed-Fi Resync (https://kb.infinitecampus.com/help/resync-ed-fi) process has been updated to eliminate extra delete and get requests for Core connections only.

Path: Reporting > Ed-Fi > Ed-Fi Resync

Ed-Fi – Error Log update for Student Academic Records (SIS-169399)

Ed-Fi logic has been updated to place an error in the Error Log (https://kb.infinitecampus.com/help/error-log-ed-fi) for the Student Academic Records resource when a scoreID is invalid.

Path: Reporting > Ed-Fi > Ed-Fi Error Log

Ed-Fi – Multiple data standard version support (SIS-177545)

The Core Ed-Fi connection has been updated to support the latest data standard version (v6) and the previous data standard version (v5).

Path: Reporting > Ed-Fi

Ed-Fi – Assessments and Student Assessments updates (SIS-186353) **[Enhancement]**

The Assessments and Student Assessments resources have been removed from Core Ed-Fi connections.

Path: Reporting > Ed-Fi

Ed-Fi - Timeout errors for the Ed-Fi Error Log (SIS-186461) **[Enhancement]**

The Ed-Fi Error Log (https://kb.infinitecampus.com/help/error-log-ed-fi) has been updated to include timeout errors to help users identify resync issues caused by timeouts. A new error message is displayed in the UI when a resync fails due to a timeout. These errors cannot be retried.

Path: Reporting > Ed-Fi > Ed-Fi Error Log

Ed-Fi - Student Academic Records update (SIS-187307)

The cumulativeGradePointAverage element in the Student Academic Records resource (https://kb.infinitecampus.com/help/core-ed-fi) has been updated to trigger for all Student Academic Records, including those with different termDescriptors.

Path: Reporting > Ed-Fi

Ed-Fi - Data Standard for Ed-Fi Configurations (SIS-189823)

An Ed-Fi Data Standard Used field has been added to Ed-Fi Configurations (https://kb.infinitecampus.com/help/ed-fi-configuration-tool---configure-ed-fi-connection) to allow users to indicate the data standard used in the Configuration.

Path: Reporting > Ed-Fi > Ed-Fi Configuration

Combine Person error fix (SIS-196679)

An issue that caused errors in the Combine Person Wizard (https://kb.infinitecampus.com/help/combine-person-wizard) due to Ed-Fi has been resolved.

Path: System Settings > Data Utilities > Combine Person Wizard

Ed-Fi - Mapping Management Tool update for automappings (SIS-199441) **[Enhancement]**

The Mapping Management tool (https://kb.infinitecampus.com/help/ed-fi-v31---ed-fi-configuration-tool---set-resource-preferences) in the Ed-Fi Resource Preferences has been updated to allow users to run automappings

for a selected resource.

Enrollment

State Edition - Enrollment Editor will allow users to filter displayed enrollment records (SIS-200315)

An update has been made for State Edition users that allows them to filter the display of a selected student's Enrollments to:

- All Enrollments (enrollments entered as part of the district's standard enrollment process, plus enrollments manually entered to capture historical non-standard enrollments)
- General Enrollments (ONLY enrollments entered as part of a district's standard enrollment process)
- Enrollment History enrollments (ONLY manually entered enrollments that capture historical enrollments not part of a district's normal enrollment process, indicated by the word "history")

Additionally, State Edition users will be able to print the Enrollment History Report by District or State grade level code, including or excluding enrollment history.

Enrollment Cleanup Wizard: Add Enrollment End Dates, End Actions, and Statuses (SIS-200462) **[Enhancement]**

The Enrollment Cleanup Wizard has been enhanced to allow school staff to update enrollment end dates, end actions, and statuses directly, rather than requiring technician assistance. This change improves the ability for districts to manage their own enrollment data.

Path: Student Information > General Student Information > Enrollment Cleanup Wizard > Update Enrollments

Enrollment Cleanup Wizard fixes (SIS-202798)

Issues were discovered relating to the Cleanup Wizard not mirroring a district's Local End Status configuration. Adjustments were made in how the Cleanup Wizard evaluates attribute configurations to ensure whether Local End Status is required, optional, hidden, or not hidden in the tool, and whether End Action is hidden or not hidden in the tool.

Forms/Documents

Custom Forms initiated from Portal and Student Form Center tool added (SIS-145578) **[Enhancement]**

Custom Forms can be configured to allow guardians and students to initiate the form process in the Portal. This includes new settings in the Custom Forms Setup tool. Form statuses (https://kb.infinitecampus.com/help/forms) were also updated to clarify those requiring intervention. See the Forms article for the new statuses and status groupings.

In addition, a new Student Form Center tool was added as a centralized dashboard for forms. This

tool allows form administrators to easily find forms that require intervention, including those initiated from the Portal (https://kb.infinitecampus.com/help/custom-forms-on-portal-process).

Also, with this update, all custom form tools were moved to a new folder location in the UI: Student Information > Custom Forms and Custom Modules. This includes the Custom Form Batch Setup (https://kb.infinitecampus.com/help/form-batch), Custom Form Setup (https://kb.infinitecampus.com/help/custom-forms-setup), Custom Module Setup (https://kb.infinitecampus.com/help/custom-module), and Student Form Center (https://kb.infinitecampus.com/help/student-form-center) tools.

Records Transfer

Records Transfer Regression Fix (SIS-202840)

The code changes introduced in release 2639 to address a Records Transfer issue caused a regression, resulting in increased database server load for some districts. The regression is due to a change in the query's WHERE clause, which has become less efficient.

The issue has been addressed by restoring a more efficient query structure to improve system performance.

The calendar picker in the Roster Builder (https://kb.infinitecampus.com/help/requests-rosters) was sometimes hidden behind table headers or other rows when updating a student's roster start or end date. This has been corrected to display correctly and remain fully visible when selecting a start or end date for a student.

Path: Requests & Rosters > Roster Builder

Request & Rosters - Cross-Site Course Scheduling (SIS-201868)

When a school designated courses in their calendar as Cross-Site courses to share with other schools, students enrolled in that school could not be scheduled into those courses through Requests & Rosters (https://kb.infinitecampus.com/help/requests-rosters). This has been corrected.

- Students enrolled in that "home school" can be scheduled into courses through Requests & Rosters.
- Students enrolled in that school as their "serving school" cannot be scheduled into courses through Requests & Rosters.

Security

Edits to Custom CSP Cause Form Errors (SIS-184792)

Edits to the custom Content Security Policy (CSP) configuration can cause form errors to appear in the "Application CSP" and "Portal CSP" sections of the tool. The errors state "cannot use words defined in the Campus directive or default campus directives" and occur regardless of the actual values entered in these fields.

This issue has been addressed to ensure that form errors appear only when invalid data is entered in the specified fields.

Colorado – Student Interchange Student Demographic updates for 2026-27 (SIS-198025)

The Student Demographic Report (https://kb.infinitecampus.com/help/student-demographic-colorado) has been updated to support state reporting requirements for the 2026–2027 school year. This update introduces the new extract format, adds new demographic and program participation fields, updates header naming conventions, and refines reporting logic for 504 plans, homelessness, and military connections.

Report format

- The 2026–2027 format has been added.
- The 2024-2025 format has been removed.

Pupil Attendance

- A new code has been added for the Pupil Attendance field on the State Reporting Enrollment editor, 99: Not Reportable For Student Collections.

Layout & Field Updates
The following new Race/Ethnicity fields have been added to the report. These report a value of 1 when selected for the student's Race/Ethnicity:

- Field 15 - South Asian
- Field 16 - Middle Eastern/North African

The following fields have been added:

- Field 18 - At Risk Status
- Field 20 - Section 504

The following fields have been removed:

- Free Lunch Eligibility

The following fields have updated names:

- Last Name (field 6)
- Free Reduced Lunch Price Eligible (field 17)
- Section 504 Current Status (field 19)
- Homeless (field 25)

- Language Instruction Education Program (field 30)

Logic Updates

The following fields have updated logic:

- Section 504 Current Status (field 19): Reports 1 when the student has a 504 plan active on the extract's Effective Date (start date is on/before the effective date and the end date is on/after the effective date, or end date is blank). Reports 0 when no active plan exists on the effective date.
- Section 504 Year Status (Field 20): Reports 1 when the plan start date is on/before the school year end date and the end date is blank or on/after the school year start date; otherwise reports 0.
- Homeless Status (Field 25): Reports 1 when the student has a homeless record active at any point during the school year (start date on/before the school year end date and end date is blank or on/after the school year start date); otherwise reports 0.
- Military Connected (Field 33): Reports 1 when parent is considered Active Duty at any point during the school year. When a parent/guardian becomes on active duty during the school year, the field updates to 1 and remains 1 for the entire school year.
